---

Greetings:

The following survey is used annually to report the number of children, ages 5-17, in local institutions (other than foster homes) for neglected (N) or delinquent (D) children. Information from the survey is tabulated by the U.S Department of Education and used to compute Ohio's allocation of local N or D funds each year under Title I of the Elementary and Secondary Education Act of 1965, as amended. These funds are distributed to local school districts to provide students in eligible local N or D institutions with supplemental educational services.

You are receiving this survey because the child count provided by your institution(s) last year generated funds for the current school year.

The deadline for the survey is **December 3, 2018**. Failure to respond by this deadline may result in the loss of a Title I service to an N or D institution for school year 2019-20. Failure to submit the survey will preclude any potential receipt of federal Title I funds by a local school district that would be used to provide education services for children in the local neglected or delinquent institution addressed in the survey.

Please list only one institution per form; however, you may submit multiple surveys if your agency oversees multiple institutions.

For your reference, a copy of the survey questions is attached.

Best,
